Goals as nominee for ITU EB member

- To improve the relationships of ITU with the national triathlon federations with focus on the countries of Southeastern Europe and the Balkans in view of their future development and participation in Olympic games;
- To initiate, promote and help with the realization of triathlon races for youth athletes not only in relay, but in individual races on national and international level and organization of European and World Championships for youth athletes individually;
- To actively participate in expanding the geographic territory of triathlon in the countries of Southeastern Europe and the Balkans not only in staging events, but particularly in establishing a pool of technical persons and coaches and establishing interexchange programs between the countries for athletes, coaches, technical persons;
- To actively participate in the selection of the best candidates for position in the ITU structures in view of their education, professional qualification, experience and skill;
- To initialize and promote a program for development of triathlon on Olympian level and expanding the scope of countries with participants;
- To initialize and promote a system of principles and criteria for financial assistance of the national triathlon federations by ITU;
- To initialize and promote a clear system of principles and rules for hosting international races on different level in view of reducing the financial burden on the event organizers and hosts and increasing of the prizes for the athletes and unification of the event fees for the different categories of races;
- To initialize and promote transparency as a guiding principle in the actions of all ITU EB members, officials, members of the different structures of ITU and regular review and attestation of the activities of the paid personnel within ITU.
